

# *Hands of Hope*

## 2023 Catalogue

*Encouraged to live  
Empowered to create*

The Hands of Hope project begun in 2005, provides villagers *living* with or affected by HIV/AIDS with creative and dignified employment. The producers currently handcraft over 600 designs of cards, decorations, mobiles, and gift items, using 'saa' paper as the main medium—sustainably made in Thailand from the mulberry tree. They receive a just income for their work, health care and transportation assistance, as well as a community of friendship and support.

**Every one of our products is an original design** - with over 80% of designs coming from the producers themselves. At the end of every year, a Design Workshop is held and it is within this creative and energized environment, that new ideas, designs and products are born. Designers receive a special commission on every product of theirs that is ordered, recognizing the creative talent that provides work for everyone.

**Every one of our products is skillfully and lovingly drawn, cut and pasted by HAND** - with each task, ability assigned. (Some producers have vision impairment or hand tremors and so are provided work which they are able to manage.) Products pass through many hands along the production chain.

Product embellishments include wire, beads, saa string, ribbon and bells, but always at the heart of the product... 'saa' paper.

**Every one of our products is a gift of hope** – both to the producer, who embraces the opportunity by which they can help themselves, and to the customer, who through the product, connects to the lives of the people here and knows who their purchase is assisting.
